MEMBERSHIP PRODUCT GLOSSARY

Research reports: Academically-aligned research based on innovative topics driven by CAPS members. These forward-looking reports provide insights, case studies, and frameworks for future success.

Webinars: Live and on-demand video content covering topics from new research, current events, WWW and benchmarking

CAPS Stats: Biweekly infographics highlighting new & insightful metrics

Whitepapers: Actionable best practices and knowledge cultivated from the latest research, publications, and industry leaders

Benchmarking reports: Strategic KPIs and best practices to help you develop and transform your practice

Newsletter: Biweekly member update including exclusive new library content, upcoming survey opportunities and events, and relevant news

CAPS speaker: CAPS subject matter experts are available to present new findings, discuss metrics or research for your internal company meetings

Global Roundtables: Our U.S. and International roundtables provide opportunities for your team to connect and engage with peers while focusing on topics shaping the profession

Member teleconferences: Leverage the CAPS member network and dig deeper into important topics, questions, and best practices on calls and teleconferences

CPO Leadership Summit: An invitation-only event designed to help you find inspiration and prepare for the future with visionary speakers, innovative topics, and unparalleled connections

Strategy Exchanges: One-day in-person or half-day virtual events bringing together SMEs from member companies to dive deep with topic- or industry-specific discussions

Quick polls: Quick responses to your inquiries, leveraging the CAPS network or a personally-selected list of industry leaders through email polls

CPO Conversations: Candid roundtable discussions with other CAPS senior-leaders on important and emerging topics

Research & Survey Pipeline meetings: Connect with other senior leaders to discuss the future of supply management and help set the CAPS benchmarking and research agendas for the year to come

Maturity Model: Defined best practices to move your organization along the continuum of tactical to strategically-aligned with company objectives, regardless of your starting point

Custom breakout reports: Go beyond the report and dig into the data by breaking down respondents' revenue, spend, or industry or comparing your company to a defined subset of responses

Metric index: More than 150 metrics in 30 categories to help measure and develop your SM organization

Metrics dashboard: Online dashboards allow you to select metrics and KPIs of interest while creating charting trends and industry breakouts
